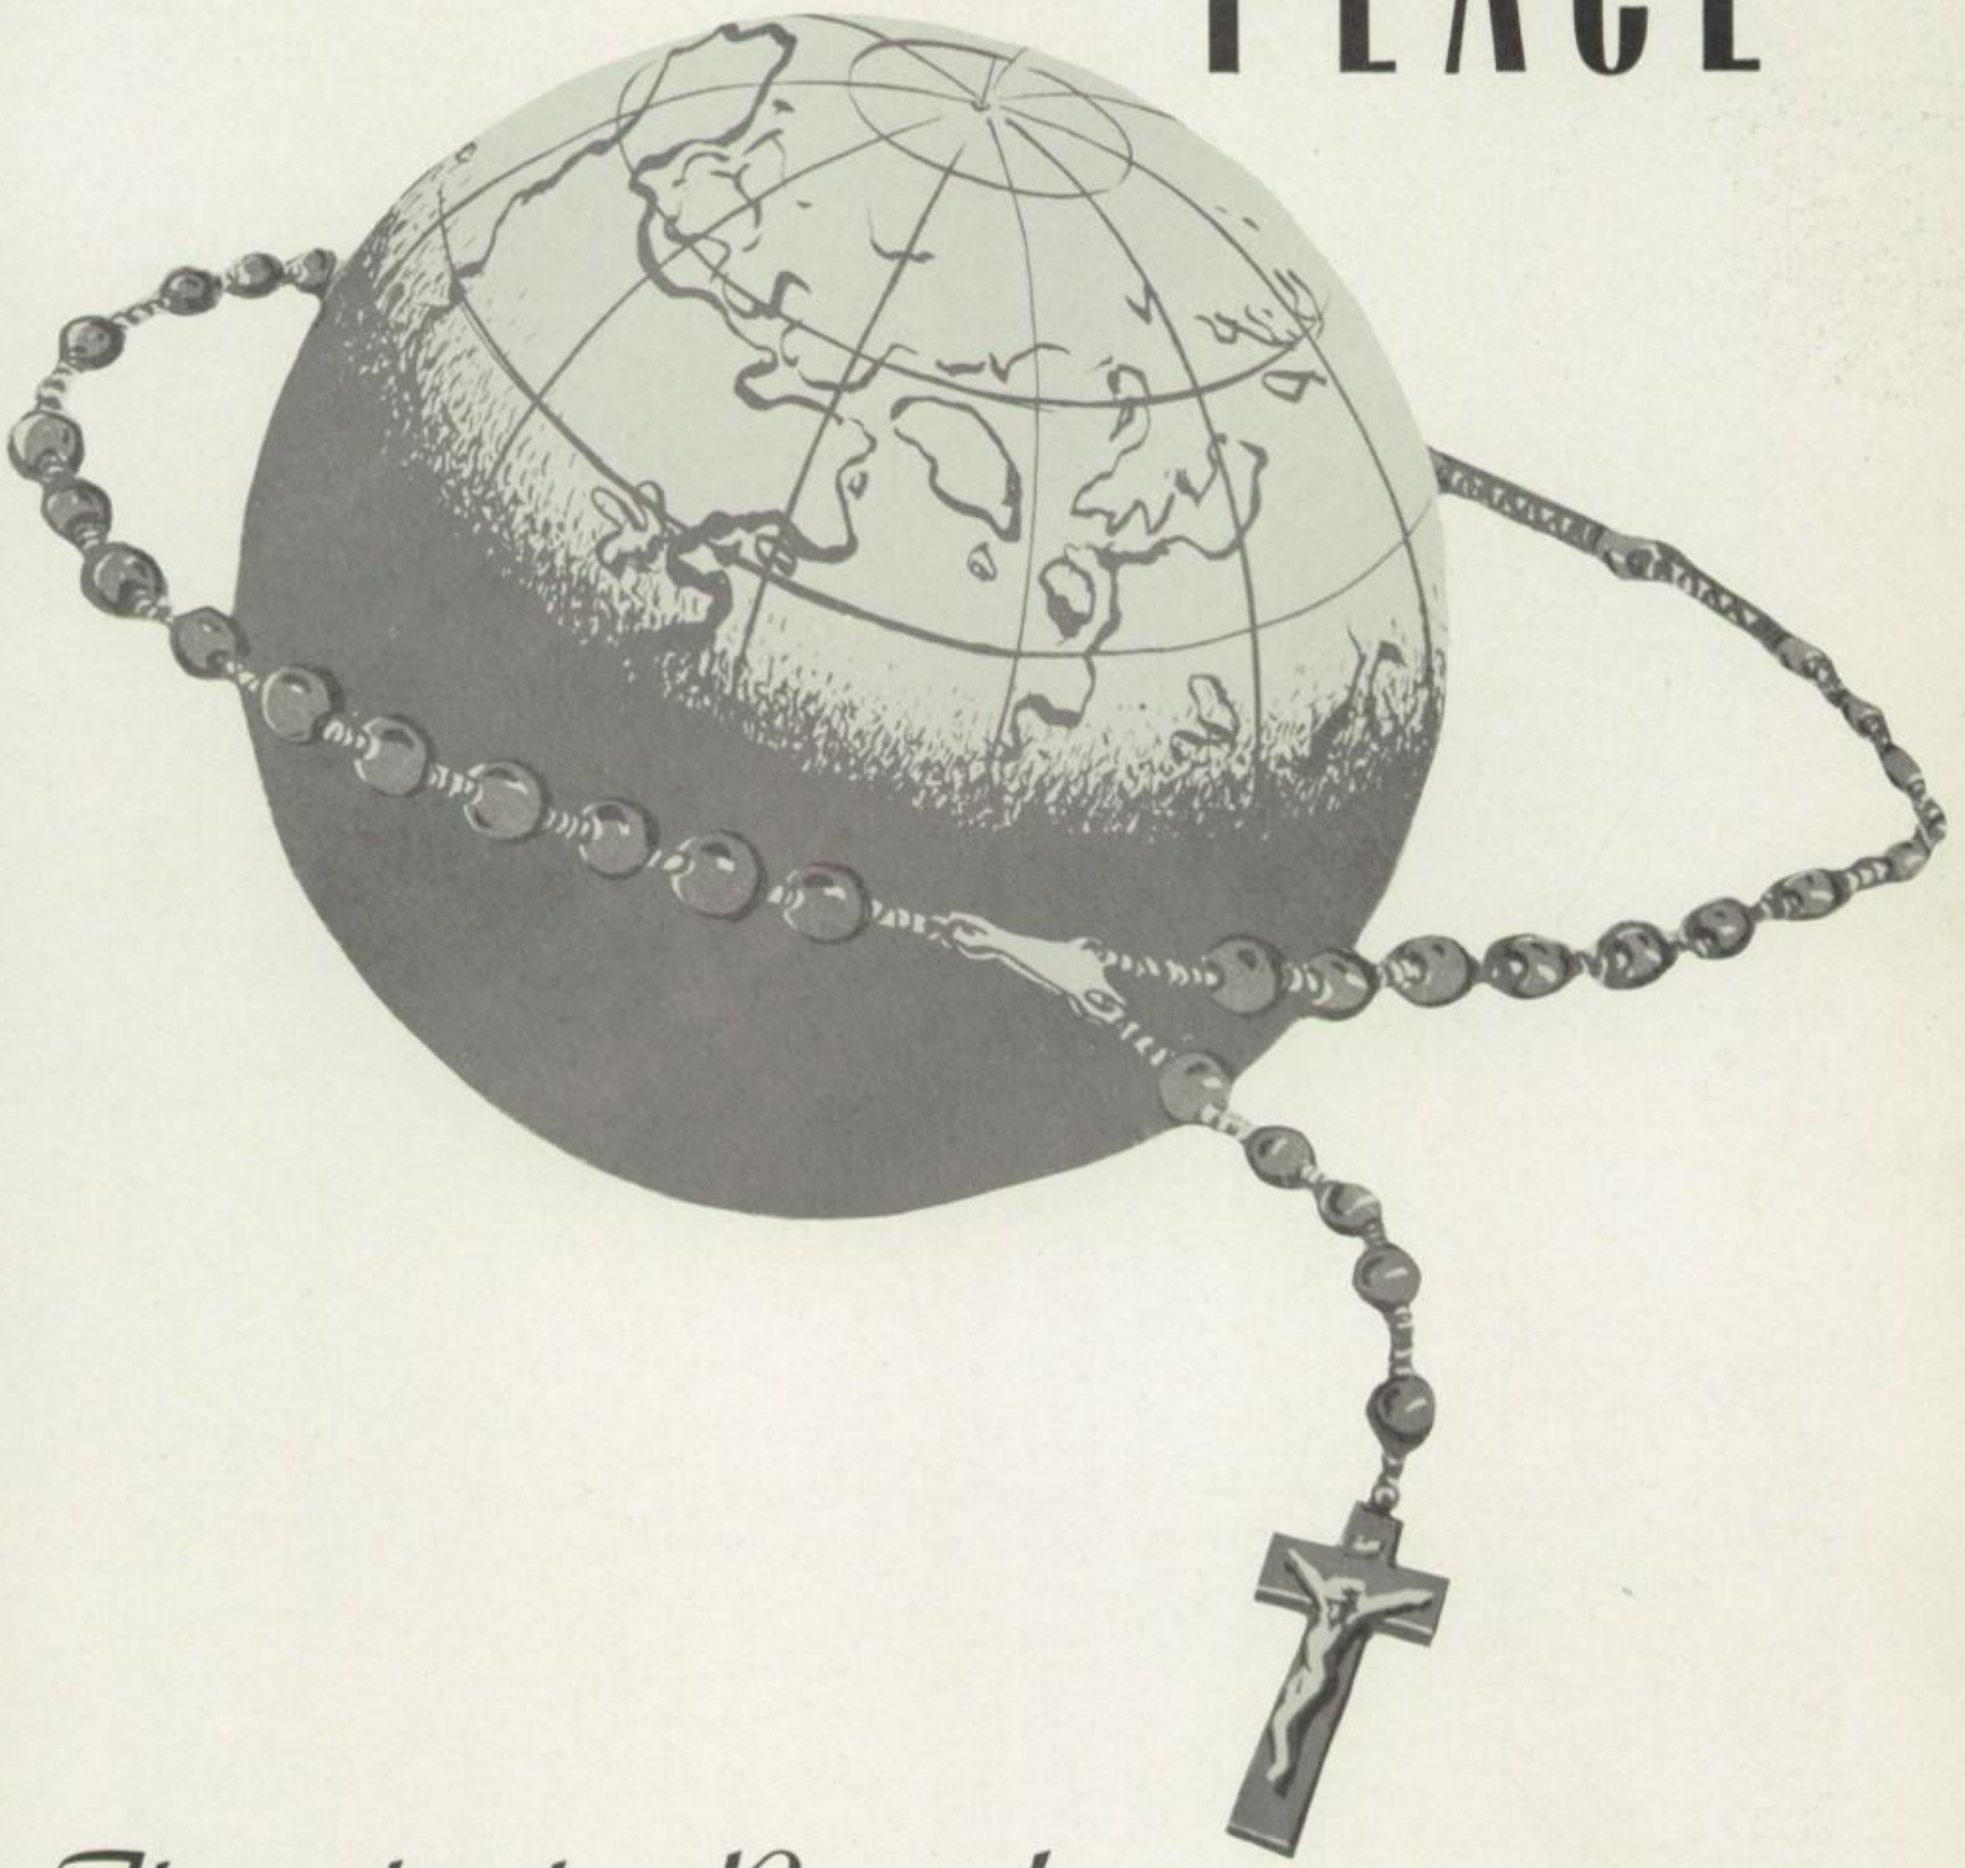
WORLD PEACE



Through the Rosary!

REVEREND EDGAR D. WEIGEL

As pastor of our church and superintendent of our school, Father Weigel has given his full support to every project suggested for the betterment of the students. His kind advice and encouragement have been a source of inspiration to us. We cannot fully express the great appreciation we feel for his interest in our welfare. We hope that in the future, his years will be as full and happy as ours have been because of our associations with him.

(John 15:6)

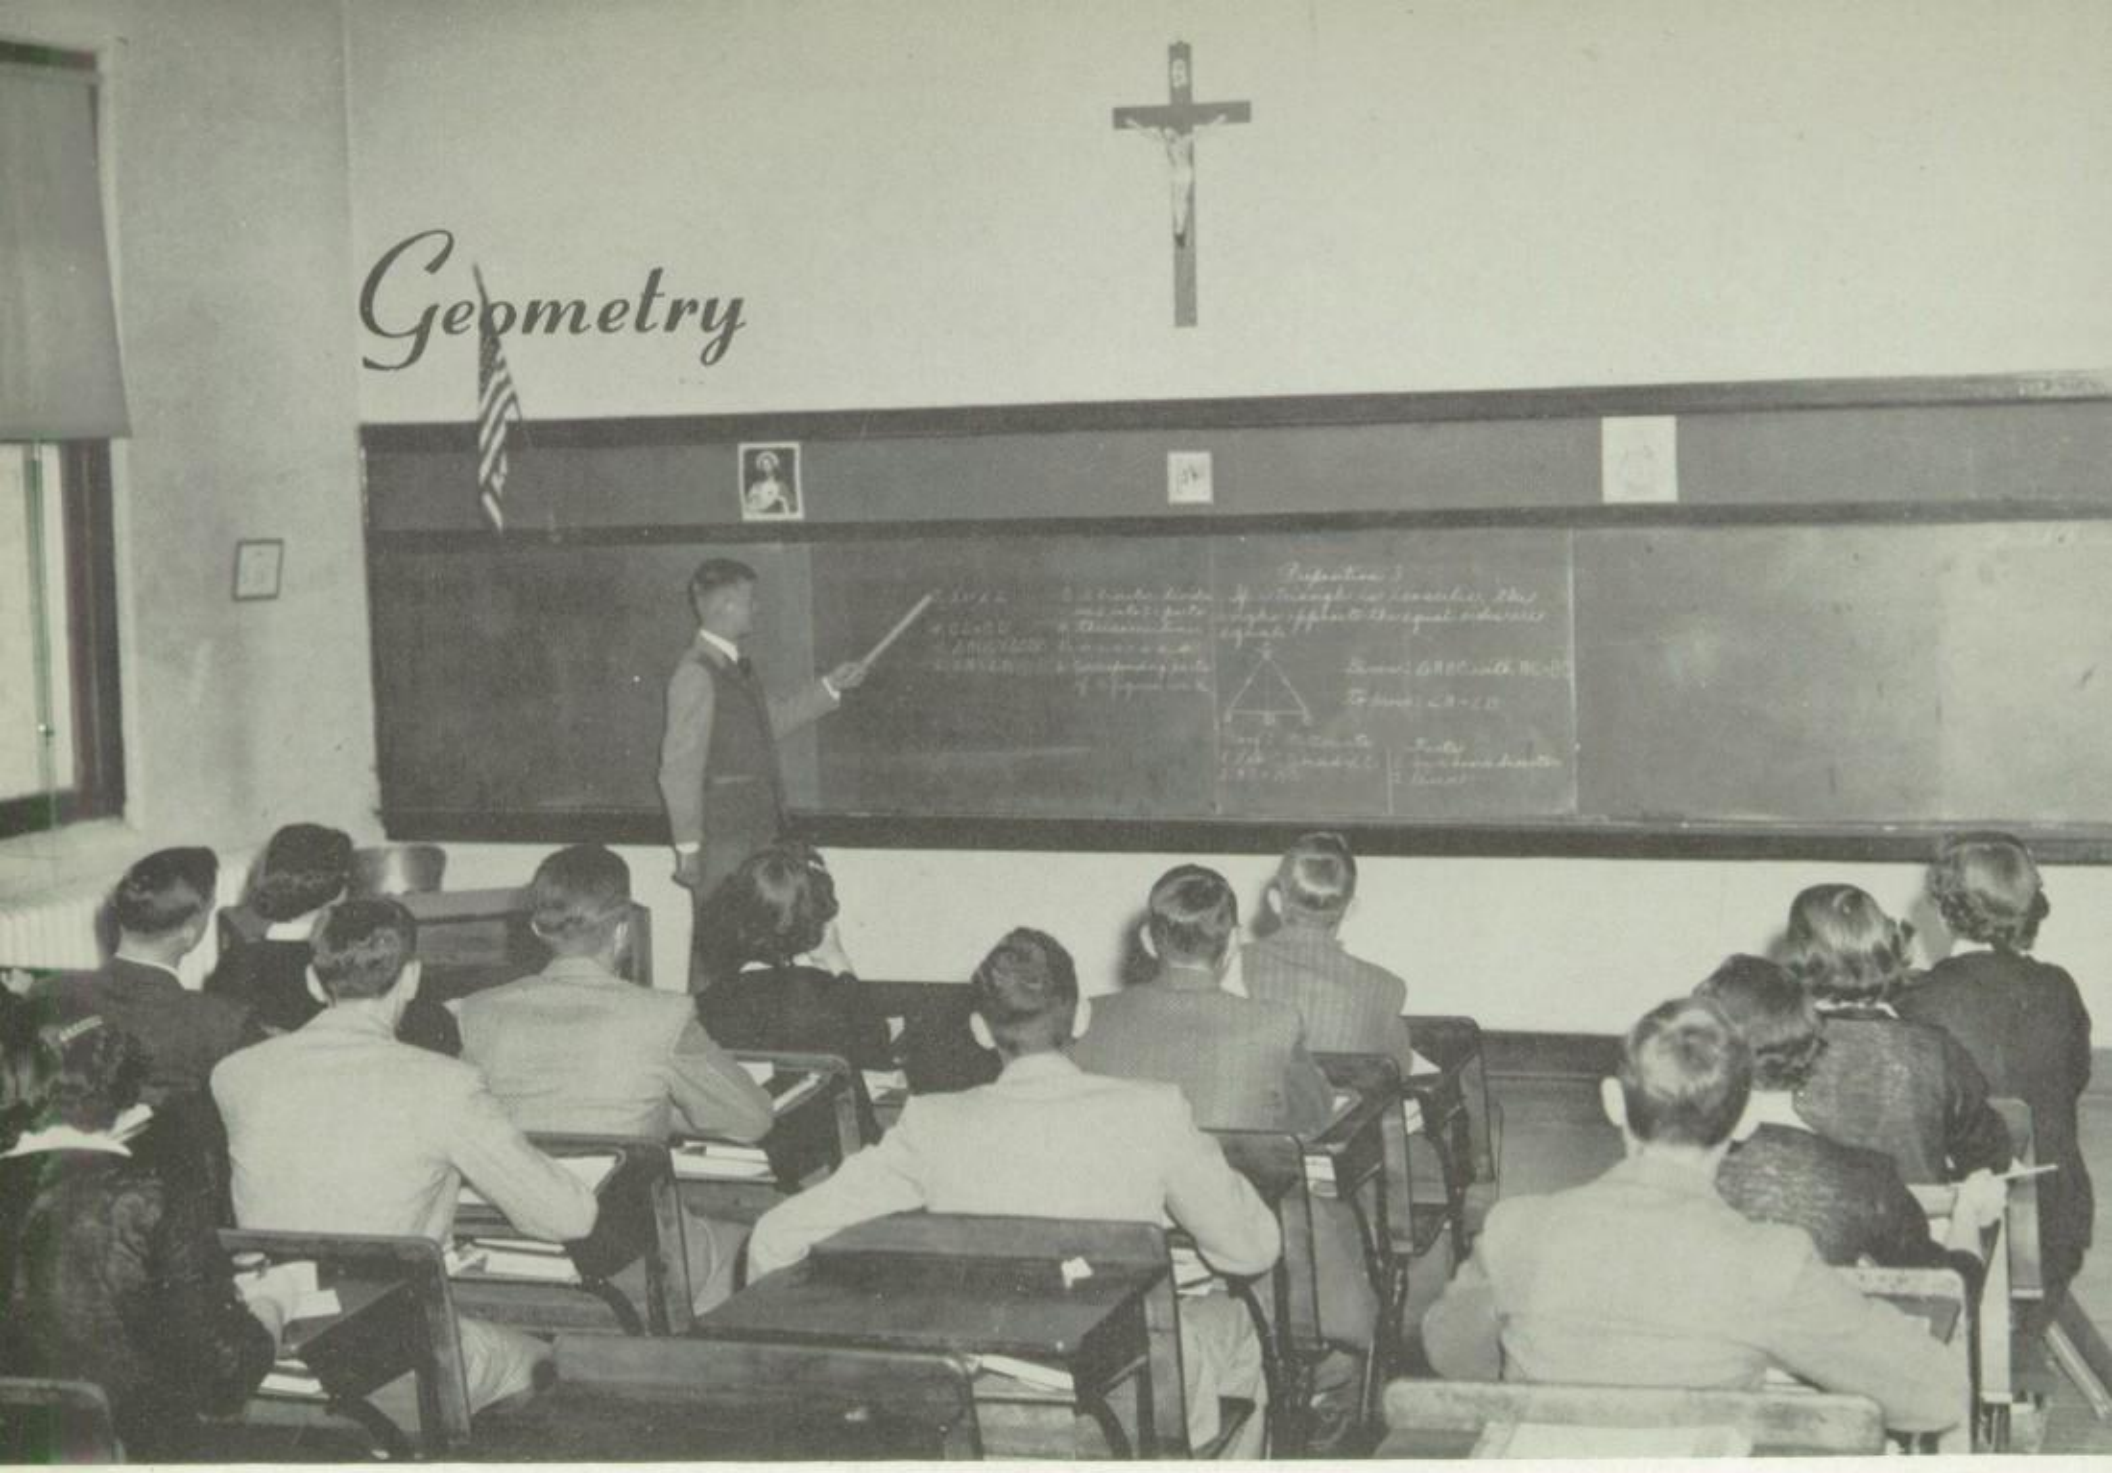
Seeing God Through the Curriculum

Religion, the core of our curriculum. is not only in the minds of the teachers but in the hearts of all the pupils.

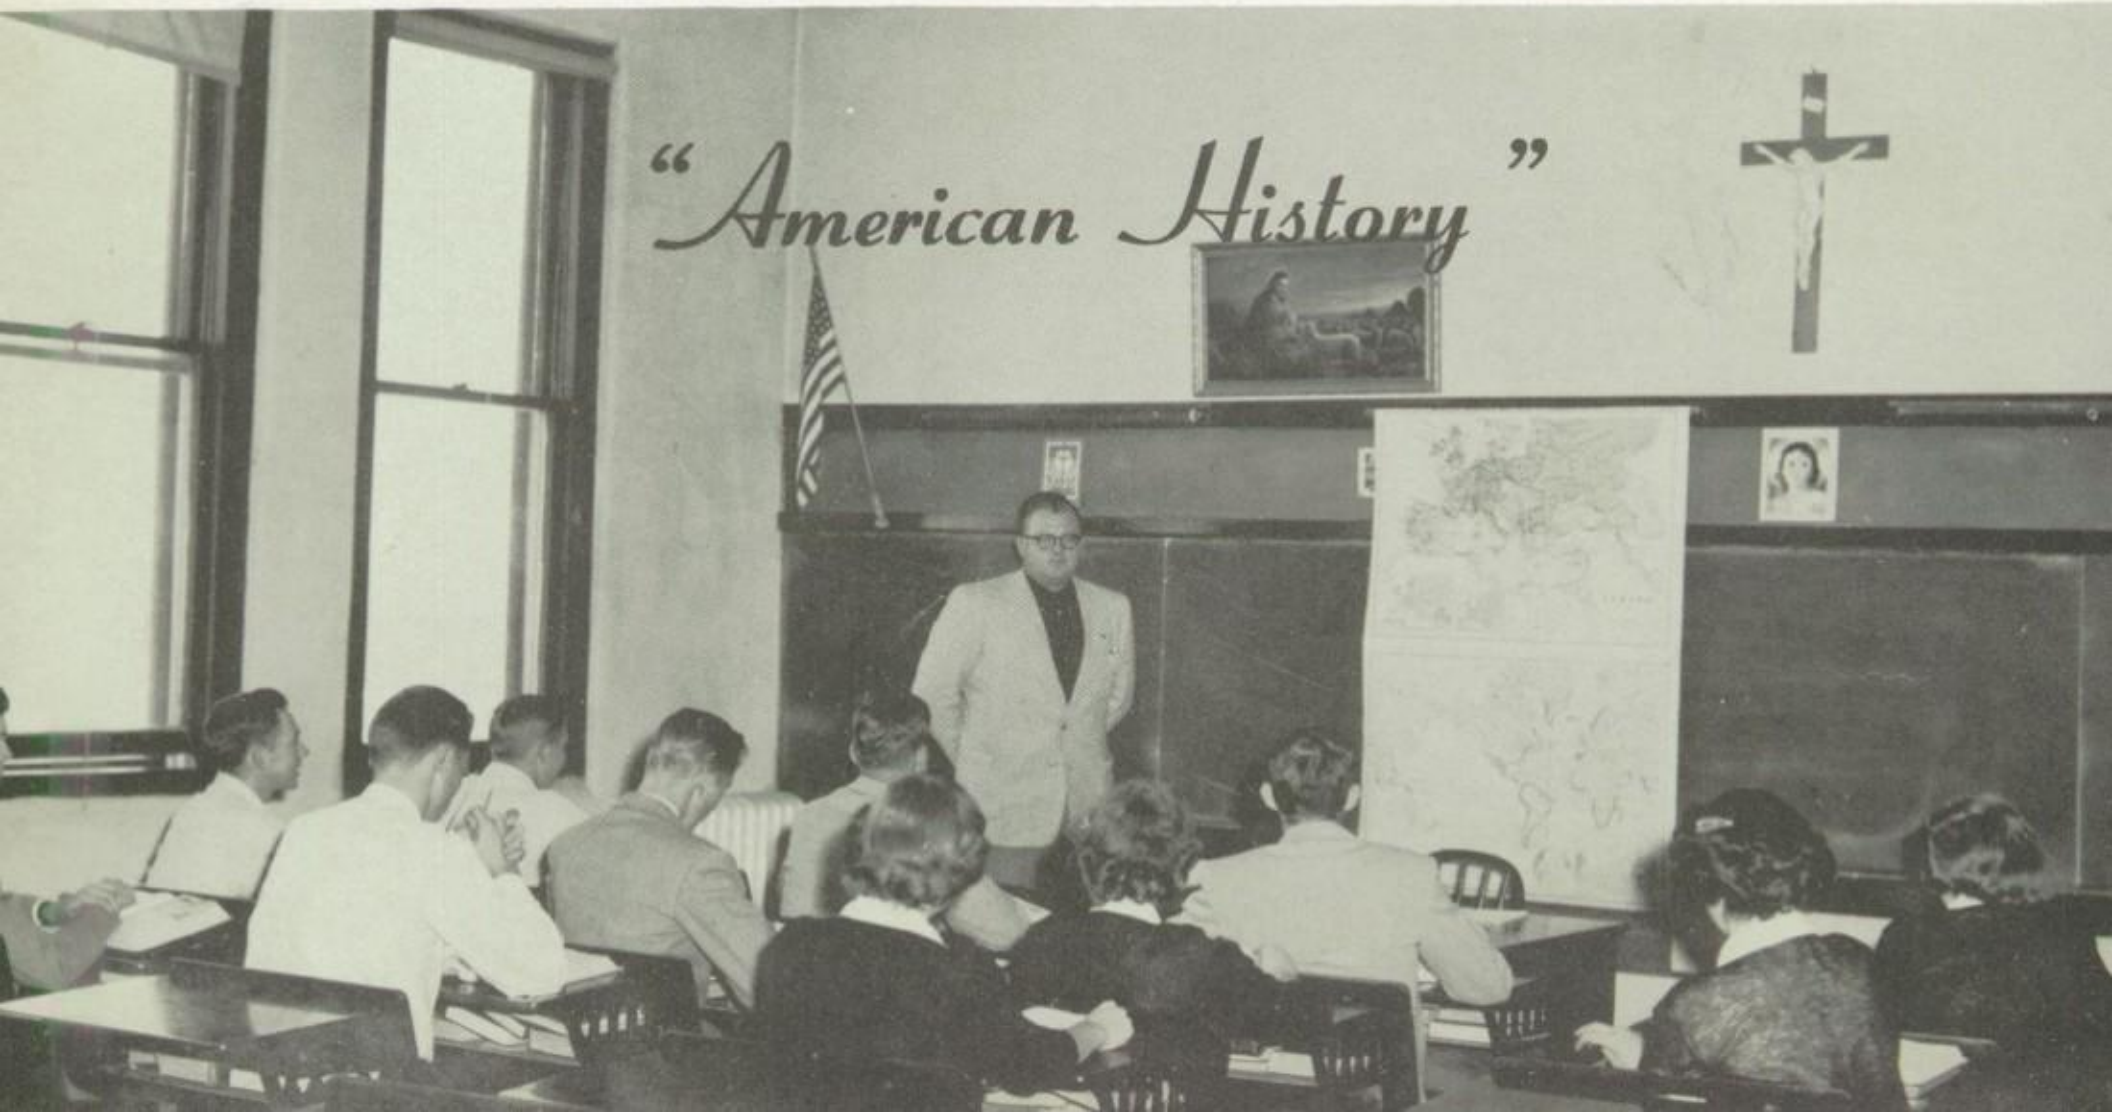
Why do we study science, history, mathematice, English? No subject in school reveals God to us better than physical sciences. It shows the goodness of God in creating life. Geometry has played in the construction of the beautiful churches, cathedrals, mural paintings, frescoes, and other works of art or architecture dedicated to the God of heaven and earth.

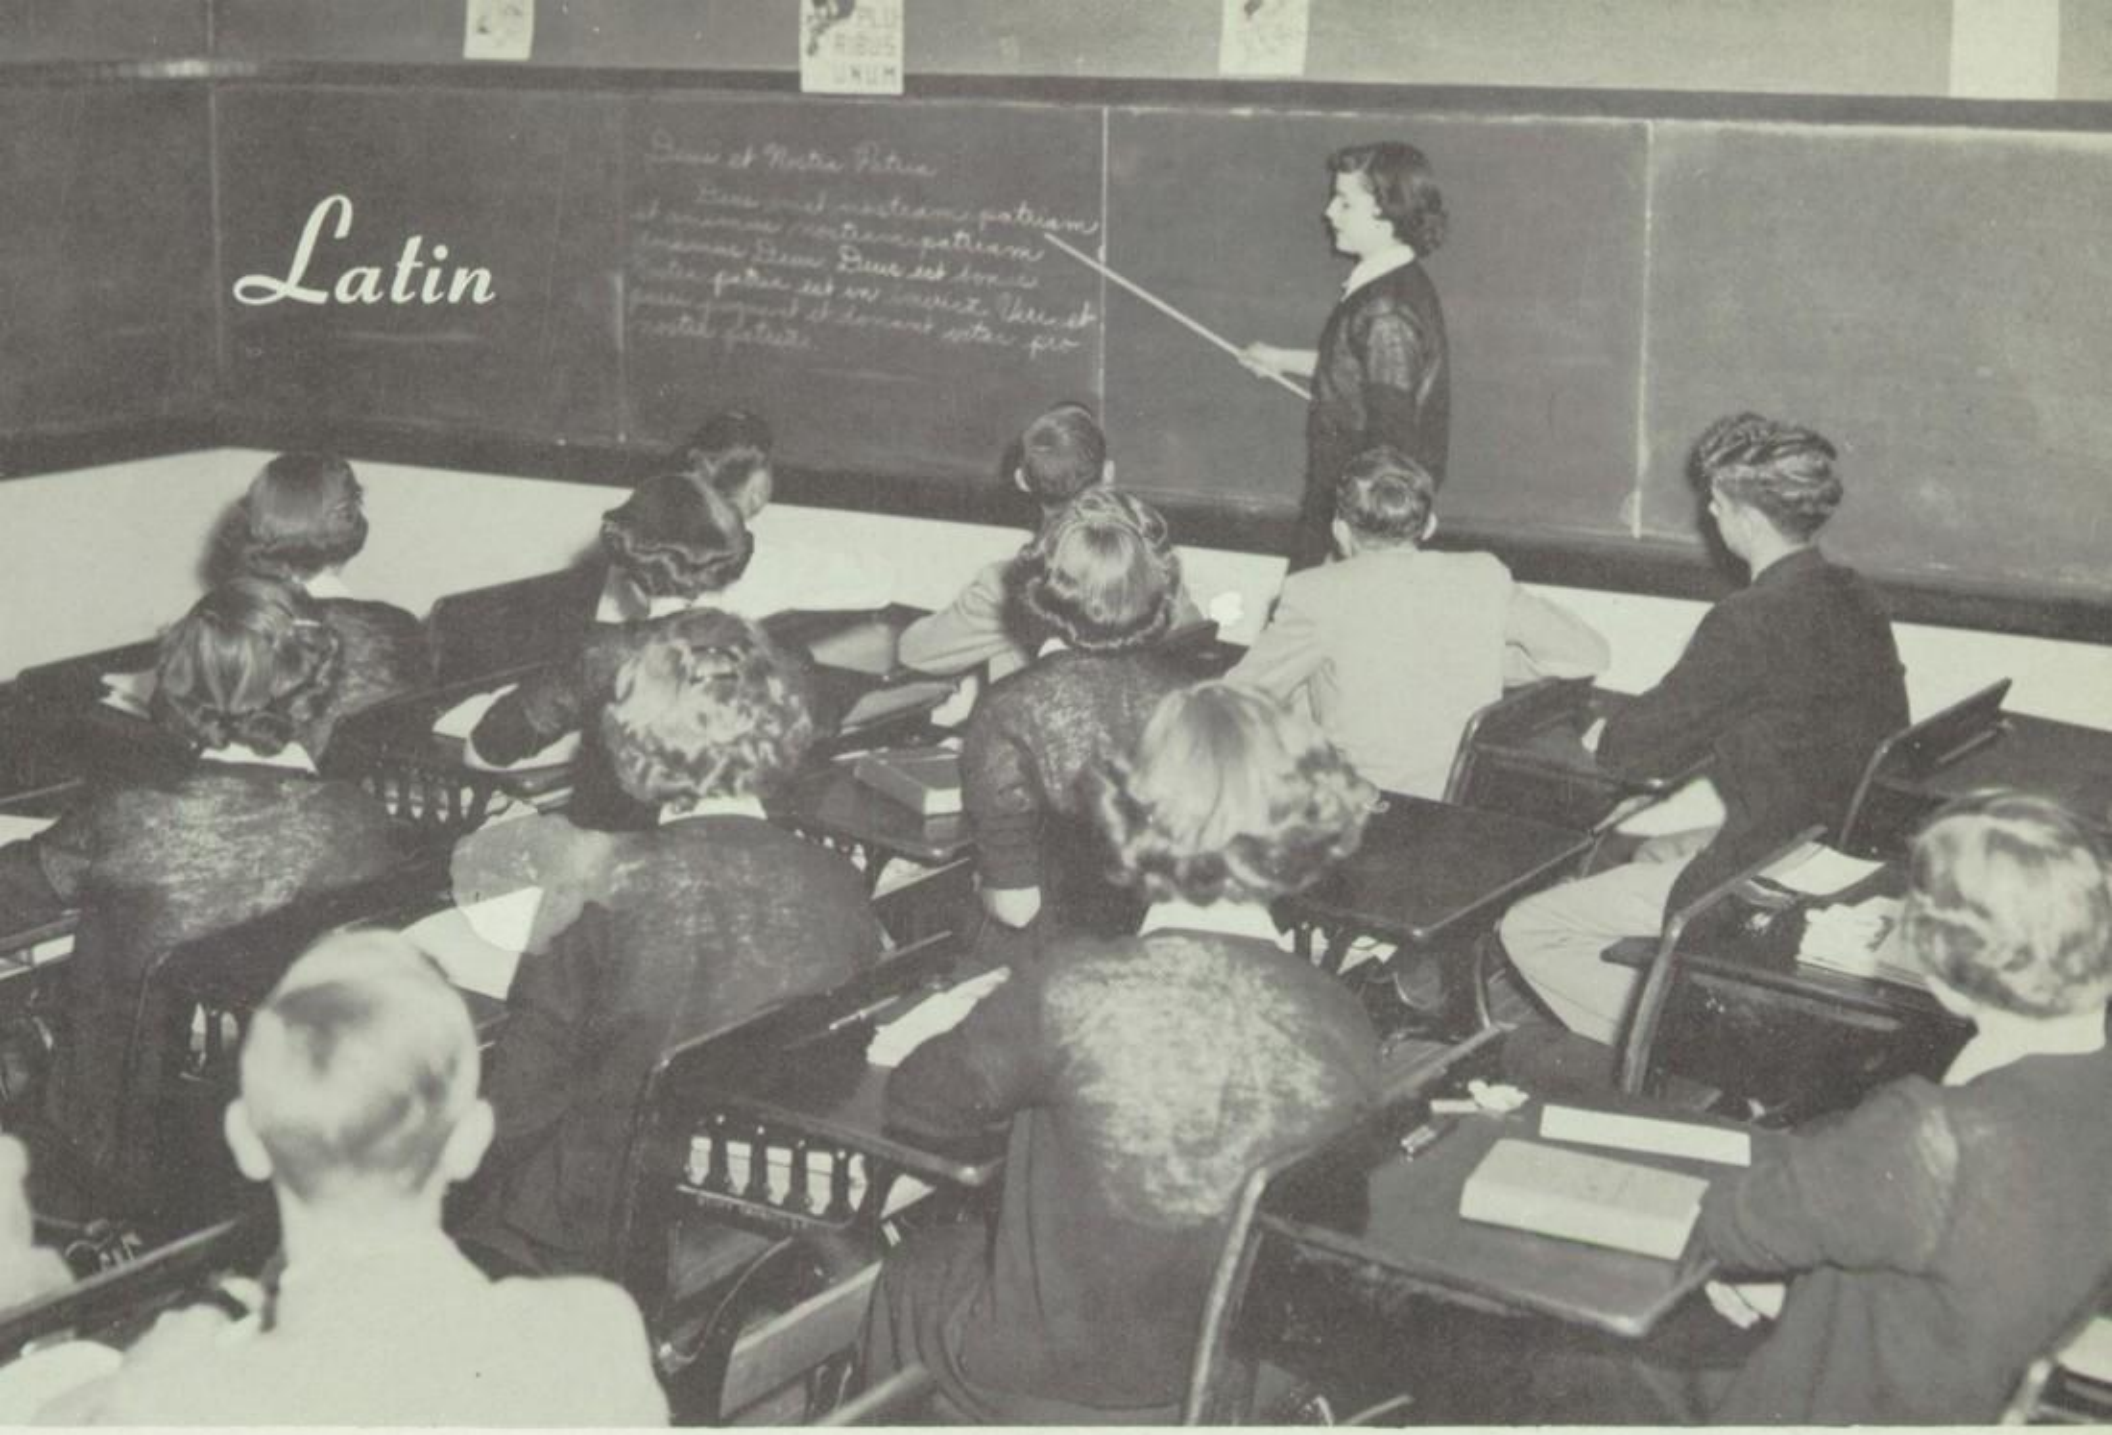
Through history we see the constant struggle between good and evil. History reveals to us the justice of God.

As we read through the annals of world's literature, the great religious poems stand uppermost Dante's Divine Comedy. He opens before us the spiritual panorama of heaven, purgatory, and hell.



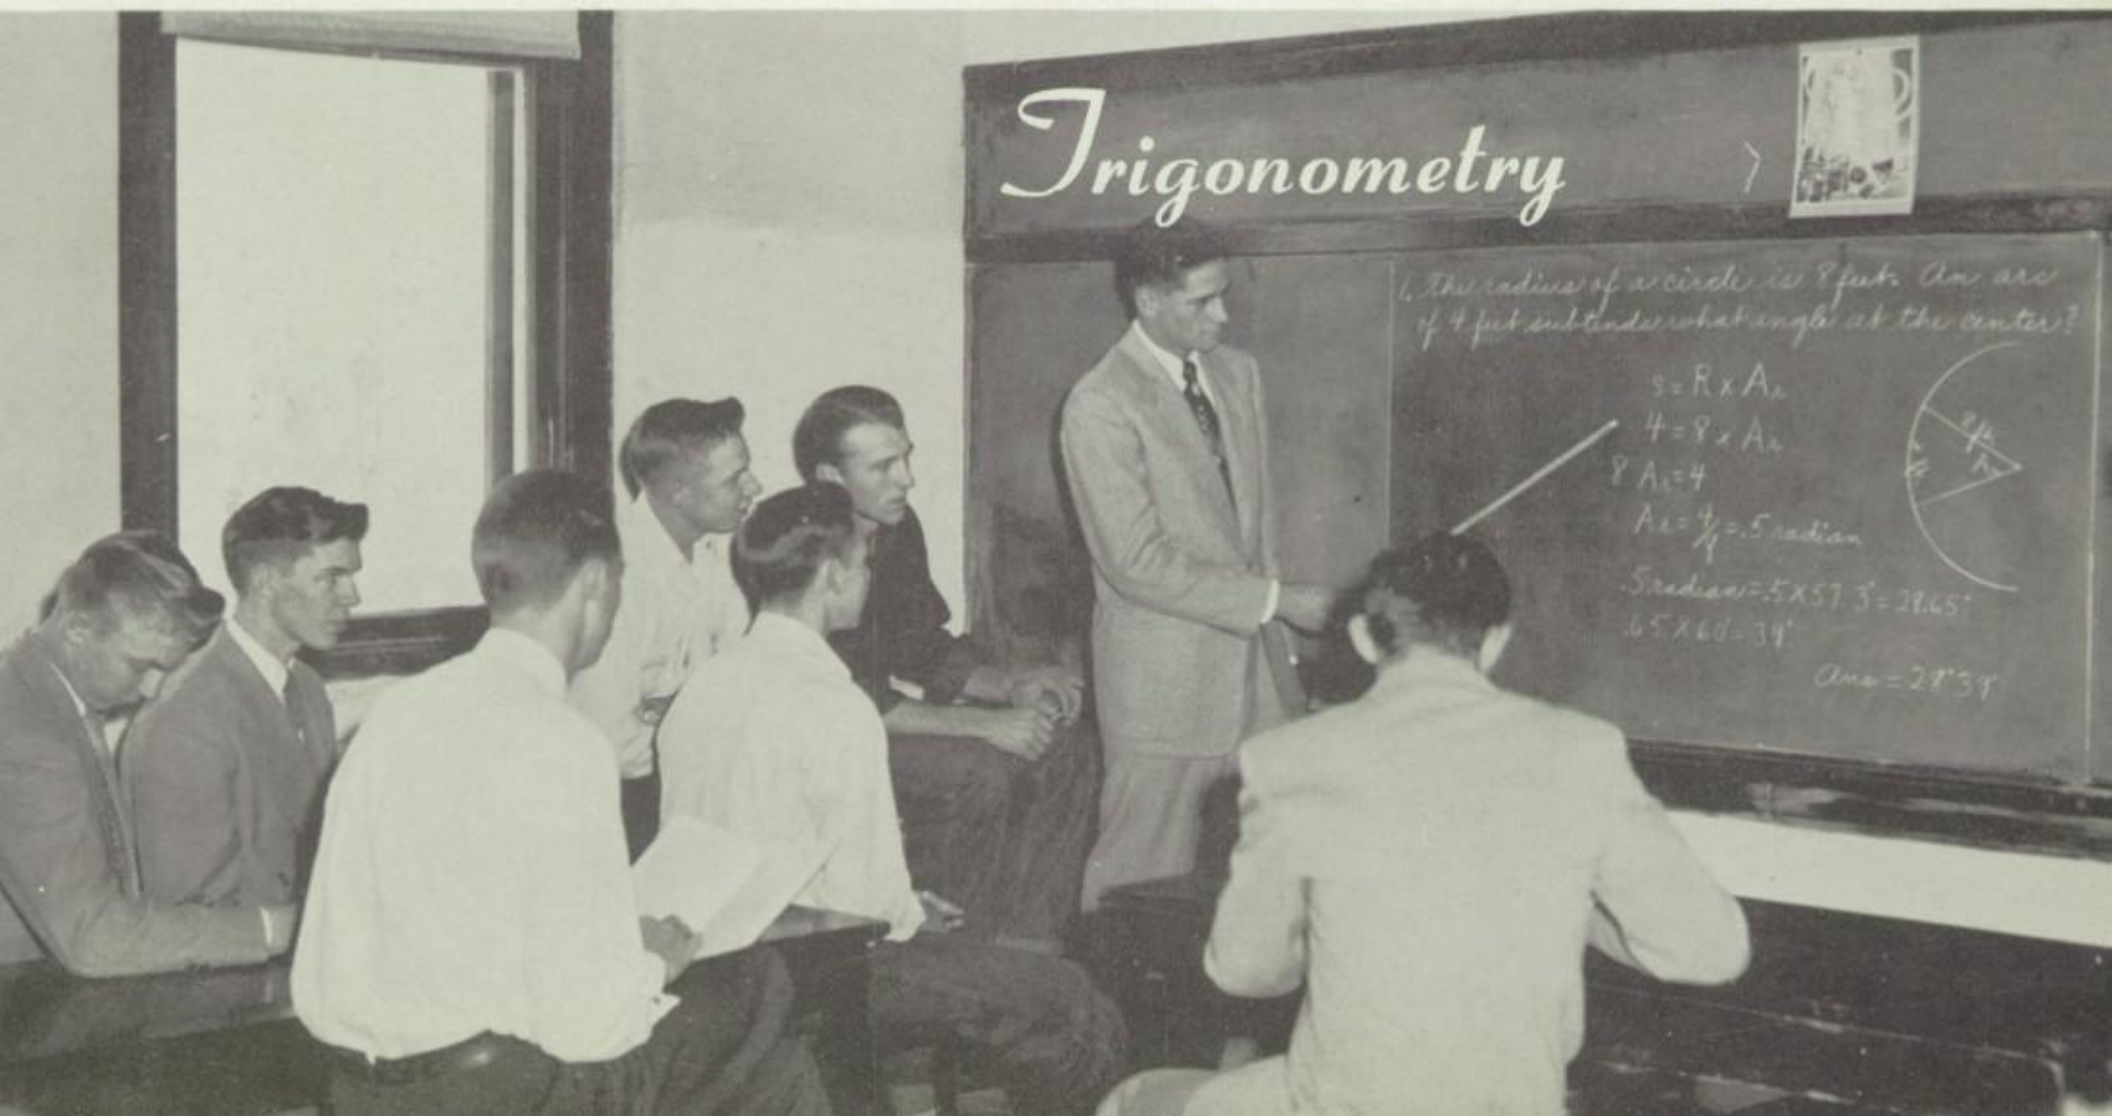
Isosceles triangles are perhaps the most common ones so these geometricians are proving this useful theorem carefully.





Even the motto of our country is in Latin so these young linquists are expressing thoughts about their God and their land in that same language.

Another application of this important theorem of trigonometry about the length of the arc of a circle enabled man to find the diameter of the sun. These boys have solved many similar practical problems.



SCIENCE EXPERIMENT

These students found that it required only about four more grams to balance an inflated basketball than it did an empty one.

BULLETIN

Activities

The ceremony of the Enthronement of the Sacred Heart at Tipton High, Nov. 11 has worked marvelous results in our school. Both faculty and students attribute to it an improved discipline, a fine cooperative spirit and a common interest on the part of all in the welfare of the school.

Father Weigel explained the significance of this consecration to the assembled students. He spoke of the message that the Sacred Heart had given to St. Margaret Mary, and urged that their dedication be not just for this occasion, but that it have a meaning in their daily lives. After a special blessing of the picture, the student body recited the Act of Consecration.

"Three Day Retreat"

MONSIGNOR J. WOLF GIVES "THREE-DAY RETREAT" TO HIGH SCHOOL STUDENTS.

The students of Tipton High enjoyed a very practical retreat under the direction of Monsignor Wolf. "Falling in Love With God" was the theme of his retreat. The daily schedule was composed of Mass, Communion, Conferences, and Consultations. Monsignor Wolf dwelt especially in his conferences on the manner of doing penance, and pointed out a number of little sacrifices that could be done each day. Devotion to the Holy Ghost was especially stressed. Benediction of the most Blessed Sacrament concluded the exercises for each day.

The students were served breakfast and dinner each day in the dining room. The Coach, Mr. Jacobs presided over the spiritual reading. At the close of the retreat, a delicious supper was served by the ladies of the Altar Society. The students presented Monsignor with a Spiritual Bouquet, and sang, "May the Good Lord Bless and Keep You".
